

THICKNESS OF LIMESCALE	LOSS OF EFFICIENCY
1/16" 	12%
1/8" 	26%
1/4" 	40%

Annual Cost Comparison

Appliances	Without Flow-Tech	With Flow-Tech
Water Heater	\$80	\$60
Washing Machine	\$50	\$35
Dishwasher	\$55	\$30
Fuel Cost (H ₂ O Heater)	\$550	\$360
Softener Maintenance	\$250	\$0
Detergent Cost	\$440	\$220
Total Annual Cost	\$1425	\$705

Total Annual Savings:
\$720

WITH FLOW-TECH HOME

- Scale stopped before it forms
- Pipes and fixtures protected
- Reduced soap and detergent needs
- Improved appliance efficiency

WITHOUT FLOW-TECH HOME

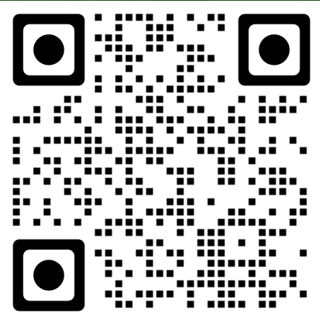

- Lime-scale clogs pipes and fixtures
- Increased soap and detergent use
- Reduced water heater efficiency
- Cloudy dishes
- Shortened appliance life

Over 80% of American homes have hard water. Hard water contains dissolved calcium and magnesium that form damaging lime-scale when exposed to pressure changes and heat.

Before Flow-Tech, homeowners were forced to rely on salt, chemicals, magnets, or coils to manage scale.

Flow-Tech Home changes that.

Matthew Garrett
★★★★★

Holy scale-busting superhero! My Flow-Tech Home unit has officially turned my pipes into the Fort Knox of limescale defense.

Salt Free. Chemical Free. Worry Free.

Flow-Tech Home does not make health or safety claims and is not certified by the California Department of Public Health.

FLOW-TECH
WATER TREATMENT SYSTEM

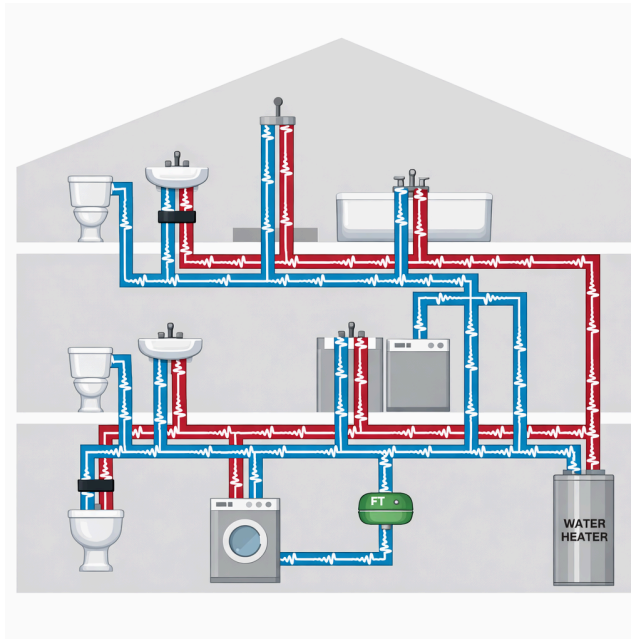

THE BENEFITS

- Saves money
- Does not use salt or chemicals
- Protects appliances and fixtures
- Removes existing scale build-up
- Increases energy efficiency
- No maintenance required
- Saves space
- Environmentally friendly
- No drain or wasted water
- 5-year warranty

HOW IT WORKS

Flow-Tech uses a low-frequency electronic signal to change how hard water minerals behave. This prevents scale from forming inside your pipes and appliances, protecting your home without salt, chemicals, or maintenance.

Flow-Tech is the only system that maintains a measurable signal across your entire plumbing system, even when water isn't flowing, protecting your home around the clock.

Water is something you use every single day.

It should feel effortless.

With Flow-Tech Home, you'll start noticing the small things that quietly make life easier.

WHAT TO EXPECT FROM FLOW-TECH

Mineral wipes away — no heavy scrubbing

Soap lathers better, so you will use less

Water feels normal, not slick or slimy

Flow-Tech doesn't remove minerals from your water.

It simply helps keep them from becoming a problem in your home.

PROVEN BEYOND THE HOME

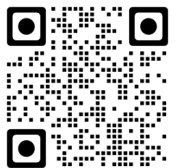

The science behind Flow-Tech extends far beyond residential plumbing.

Flow-Tech Home is designed specifically for residential systems. The underlying technology, however, has been successfully applied in large-scale, high-demand environments where performance and reliability matter most.

- Pools
- Stadiums/Arenas
- Orchards
- Hotels/Resorts
- Oil Facilities
